

**CIB  
EDUCATIONAL  
SEMINAR**

**Concrete Industry Board Morning Educational Seminar  
Wednesday, Sept. 14, 2016 9AM – 12PM Doors open at 8:30AM**

**Topic: High Performance Concrete in New York City**

Engineers, contractors and concrete producers will share their experiences and recommendations for advancing quality in concrete projects

Location: New York Athletic Club, 59<sup>th</sup> & 7<sup>th</sup> Avenue – 180 Central Park South

**Moderator:**

William S. Phelan, Senior Vice President of Marketing & Technical Services  
The Euclid Chemical Company

**Engineers**

**Borys I. Hayda**  
Topic: "How SCC is the key to success of high performance buildings in New York"  
"Self Consolidating Concrete (SCC) is a key to the success of many iconic concrete buildings in New York City. The high strength and stiffness achieved by SCC is integral to the design and construction of 220 Central Park South, 125 Greenwich and many other projects. Feasibility of placement with congested reinforcement is another advantage. Acceptable surface finish without extraordinary measures is icing on the cake."

**Megan Lenz**  
Topic: Current and past experience with SCC. Current SCC projects, upcoming SCC projects and expectations

**Concrete Contractor**

**Antonio Martins**  
Topic: SCC project experience. Current usage for mass concrete and reinforced formed members.

**Concrete Producer**

**Raul Herrera**  
Topic: Past successes and current mass concrete and NYC Tower SCC mixes.
